

FTR Gold™ Monitoring Suite

The gold standard in digital court recording—
extended to multiple courtrooms or courthouses.

Designed specifically for **monitoring and controlling recordings** in the courtroom from outside of the courtroom—For The Record's suite of monitoring software supports jurisdictions of all sizes.

FTR Gold Monitoring Suite 7 includes all the recording innovations of Recording Suite that dramatically improve the quality, capacity, and accessibility of audio and video court recordings.

With added remote control and central monitoring of up to 16 channels high-fidelity audio and four channels of HD video across all rooms, FTR Gold Monitoring Suite has everything you need to record and manage the court record for the entire courthouse.

Inclusions:

FTR Monitor, Manager, and Player

FTR Gold Monitoring Suite

Revolutionary features and benefits

- Advanced recorders, which capture up to 16 channels of high-fidelity audio and four channels of HD video, are monitored remotely across multiple locations
- Simultaneous playback as audio and video recordings are captured verifies quality and confidence in recording
- Quick and easy management of recordings of one or many remote recorders from a single PC anywhere on the network
- Clear, level indicators give a complete picture of recording activity across the enterprise
- Group policy integration manages user accessibility to recordings, log sheets, and other features of the suite
- Searchable, time-stamped Log Notes simplify locating specific portions of a hearing
- Compatibility with the latest version of Reporter 7 and Recording Suite 7, as well as older versions of Warehouse
- Dual-licensing model supports customers requiring difference license types, including machine or site licenses
- Improved installer simplifies upgrade from previous versions of FTR Gold
